

Westchase District Hike & Bike Trail

The Westchase District Trail

The Westchase District Trail would run north and south along the Harris County Flood Control drainage ditch, and would connect the existing and proposed Buffalo Bayou and Brays Bayou Trail Systems.

TRAIL HIGHLIGHTS

- Connects two major trail systems (Buffalo Bayou and Brays Bayou)
- Links homes, worksites, schools, churches, parks, a library, and Metro Park and Ride Lot
- 90% "off street" trail
- Cost effective since minimal right-of-way is needed
- Is in a rapidly growing, densely-developed area so commuting potential is high
